

CSC 3610 – Project 1

This assignment tests your understanding of basic HTML and CSS. You will create several files related to a simple personal web page.

Pages

Main Page – This page will be a simple bio page with information about yourself.

Lakeland Page – This page will be a guide to things to do in Lakeland

Projects Page – This will be a link to a directory of your projects for this course

Pets Page – This will be a page with information on your pets, or your fictional pets if you don't have any

Quotes Page – This will be a page of famous quotes

Contact Me Page – This will be an HTML form for contacting you

To Earn a C

Add all of the following things to your pages:

- Main Page
 - An appropriate title for your page
 - A level one heading with your name
 - A level two heading for “Personal Information”
 - Include an unordered list that includes
 - Hometown
 - Class of 202?
 - Your major(s)
 - Your minors (if any)
 - A level two heading for “Current Courses”
 - Include an ordered list for your courses
 - Include both course code and course name
 - Alphabetize the courses by course code
 - A level two heading for “Why Am I Taking CSC 3610”
 - A paragraph with an explanation
 - A level two heading for “Hobbies”
 - A paragraph describing and real or fake hobbies you want to put
 - At least one link to an external page someplace on the page (that opens in a new tab)
 - At least one properly sized image (it should fit sensibly on the page)
 - A set of links to all the other pages on your site (opens in the same tab)
- Lakeland Page
 - An appropriate title for your page

- A level one heading for “Things to Do in Lakeland”
- Three things to do, each including
 - A level two heading with the name of the item
 - An image for that item
 - A link to the website for the item (opens in a new tab)
 - A description for the item
- Projects Page
 - An appropriate title for the page
 - A level one heading for “My Projects”
 - A level two heading for project one
 - A description of project one
 - A link to the project one page (your name page)

To Earn a B

Complete all of the items for a C, plus add the following

- On all pages, images must include a valid alt tag and must be local images located in an images subfolder
- All images must include an appropriate alt attribute
- Appropriate use of strong and emphasis text on your pages
- Each item on the projects page and things to do page must be wrapped in a div tag
- Appropriate use of HTML comments through the pages to document your work
- Add a fourth pets page, which has
 - An appropriate title for the page
 - A level one heading for “My Pets”
 - A series of div blocks for each pet, which includes
 - A level two heading for the pet name
 - A picture of the pet
 - The age of the pet
 - A description of the pet
- A table with pet statistics that includes
 - Appropriate headers
 - Multiple columns of information
 - Multiple rows of information

To Earn an A

Complete all of the items for a B, plus add the following

- All images must be in figure blocks and include a proper caption
- On the main page the links to your other pages should be at the top of the page and wrapped in a nav tag
- Add a fifth page for quotes, which has
 - o An appropriate title for the page
 - o A level one heading for “Famous Quotes”
 - o A series of div blocks for the quotes, which includes
 - A block quote for the actual quote text
 - An attribution line for each quote
- Add a sixth page, which has
 - o An appropriate title for the page
 - o A level one heading for “Contact Me”
 - o A contact form, including
 - Name, which is a required field
 - Subject, which is a required field
 - Message, which is a text area
 - Warranty, which is a checkbox for “I want to talk to you about your car’s extended warranty”
 - An appropriate submit button

Submission

To submit your work, you will need to ZIP up all of the content, including any images and subdirectories you have. You will submit your file through the portal. Please let me know if you have any questions.
